

Likely recommendations resulting from Murphy Commission Review:

a. Delegation of DCI oversight for CIA to DD/DCI and strengthen DCI's oversight for Community by closer proximity and staff association and ready access to the President in his role as principal intelligence officer.

b. Clarify the CIA's responsibilities for foreign intelligence by retitling CIA.

c. Strengthen PFIAB and increase its size.

d. Restricted use of covert action and broader consideration of results, with requirements to advise Congress in a regularized manner, via an oversight committee.

e. Improved relevance and quality of intelligence through an active NSCIC chaired by DCI, and membership including President's National Security Advisor.

(1) Effective use of State Department's Foreign Service reporting.

(2) Strengthen capabilities of other Executive Departments in analysis of economic issues.

(3) Modified NIO concept by dedicated staff to draft and review NIEs with clear statements of Agency differences, with increased emphasis on human source reporting.

f. Development of multi-year plans for allocation of responsibilities throughout community with resultant budget preparation, and DCI participation with OMB in review of all intelligence budgetary requests.

g. Adequate analytic and managerial capabilities within DoD to assure the allocation of DoD intelligence resources responsive to national priorities.
